# *Bynum*

## *Solid Stem Clearfield® Winter Wheat*

Bynum is a solid stem Clearfield® Hard Red Winter wheat for the sawfly areas of Montana. Bynum is a "Rampart Type", with lower than average yields, high protein, and excellent baking qualities. This variety has average height and straw strength, and is early maturing. Bynum is recommended in areas where sawfly problems are prevalent and the Clearfield® System is desired for weed control.

Average of 2007 MSU WW Performance Trials at 8 locations

- **Solid Stemmed**
- **Early Maturing**
